

CS SERIES \ E-VIPO°

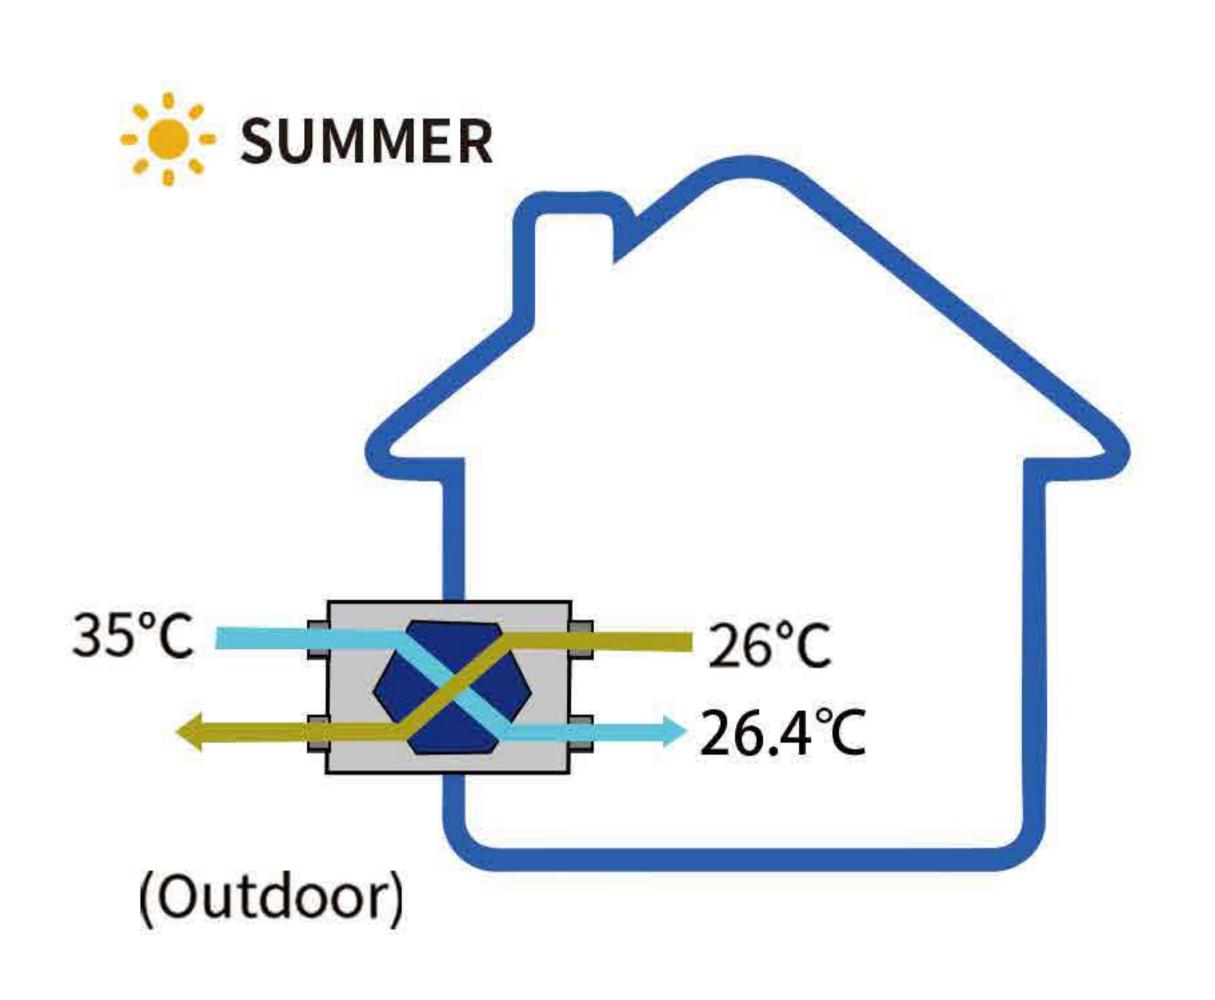

COUNTER-FLOW

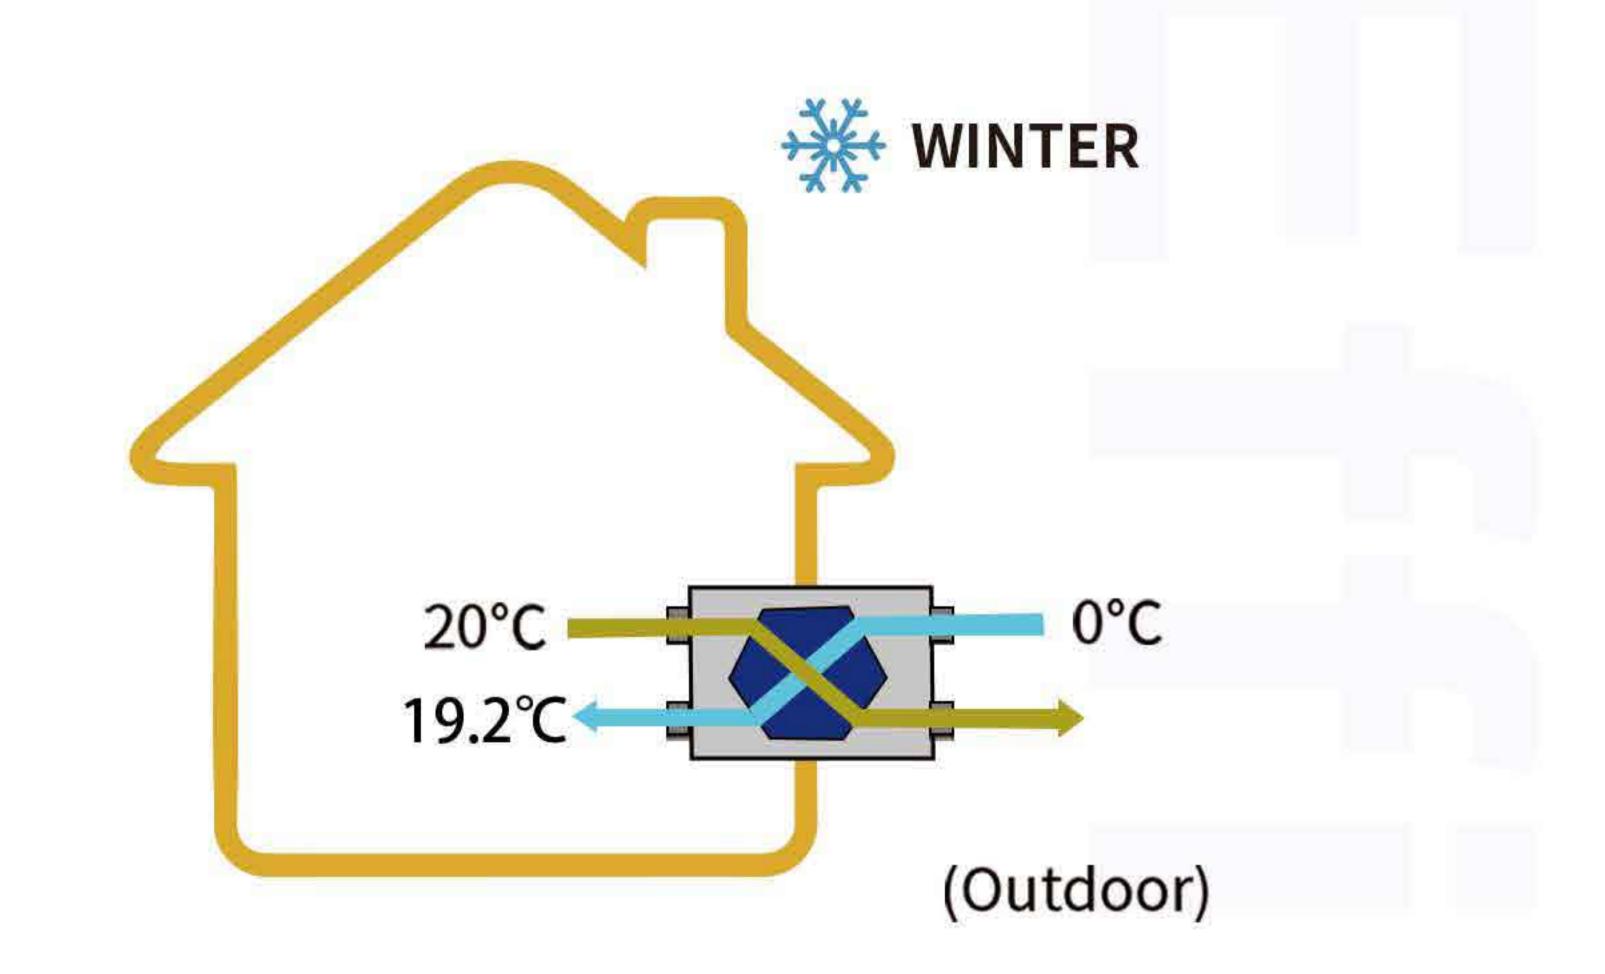

High Efficiency

Counter-flow plate heat exchanger (no moving parts), with an optimal distance between layers to ensure a high heat recovery efficiency and a smooth movement of the airflows. Material with Graphene used has a high heat recovery efficiency.

The core is washable and durable, anti-mold, anti-viral and anti-bacterial.

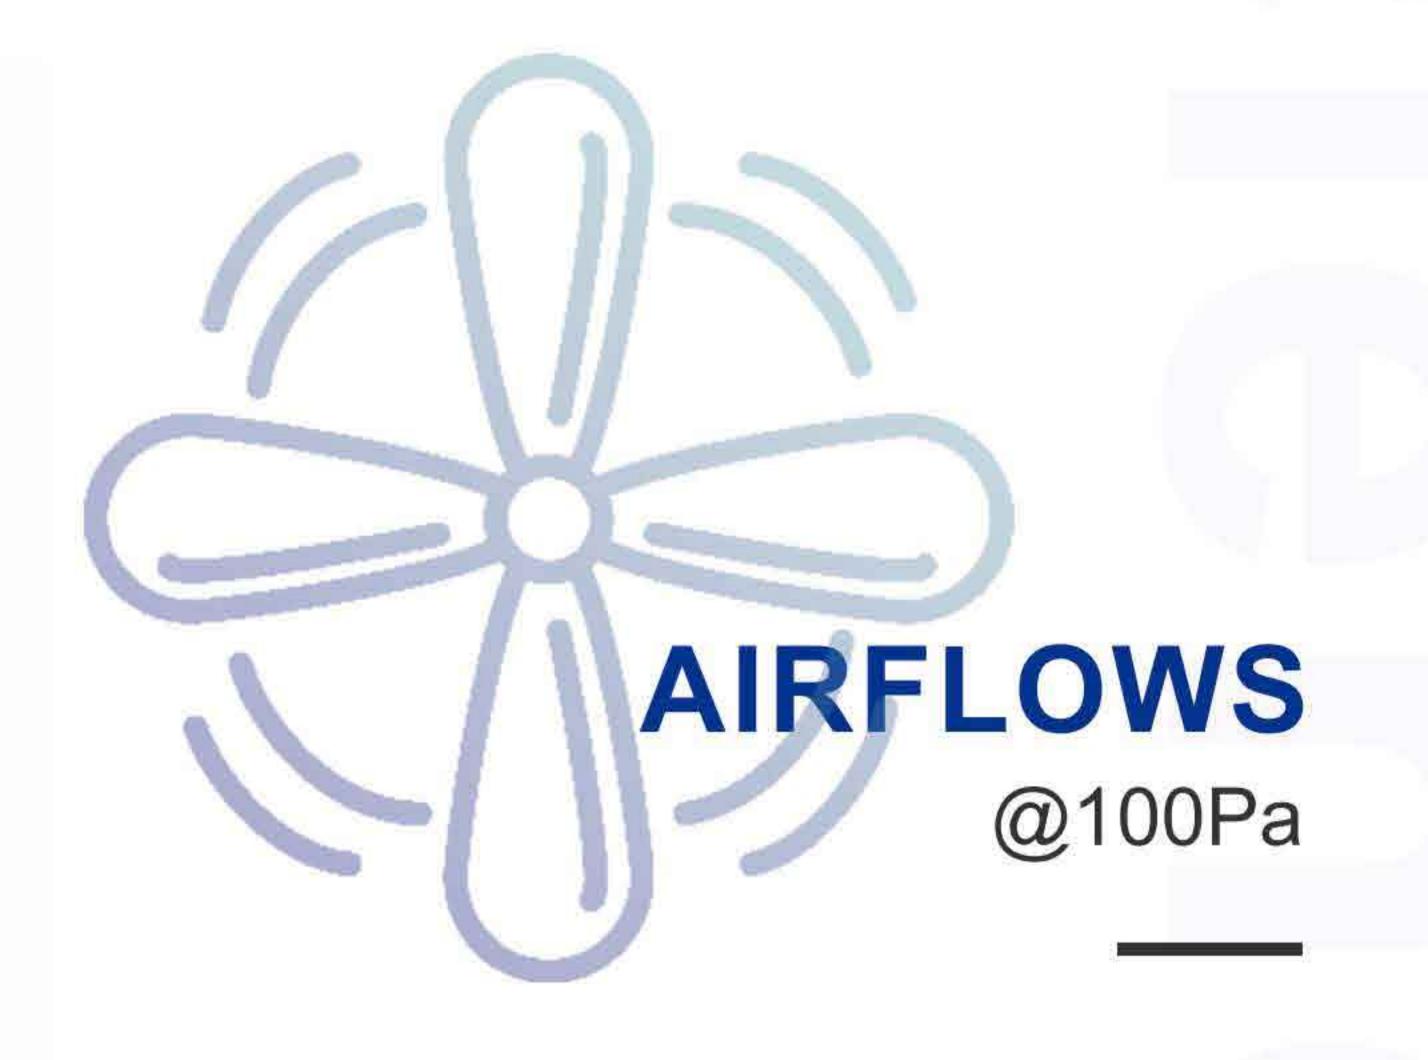

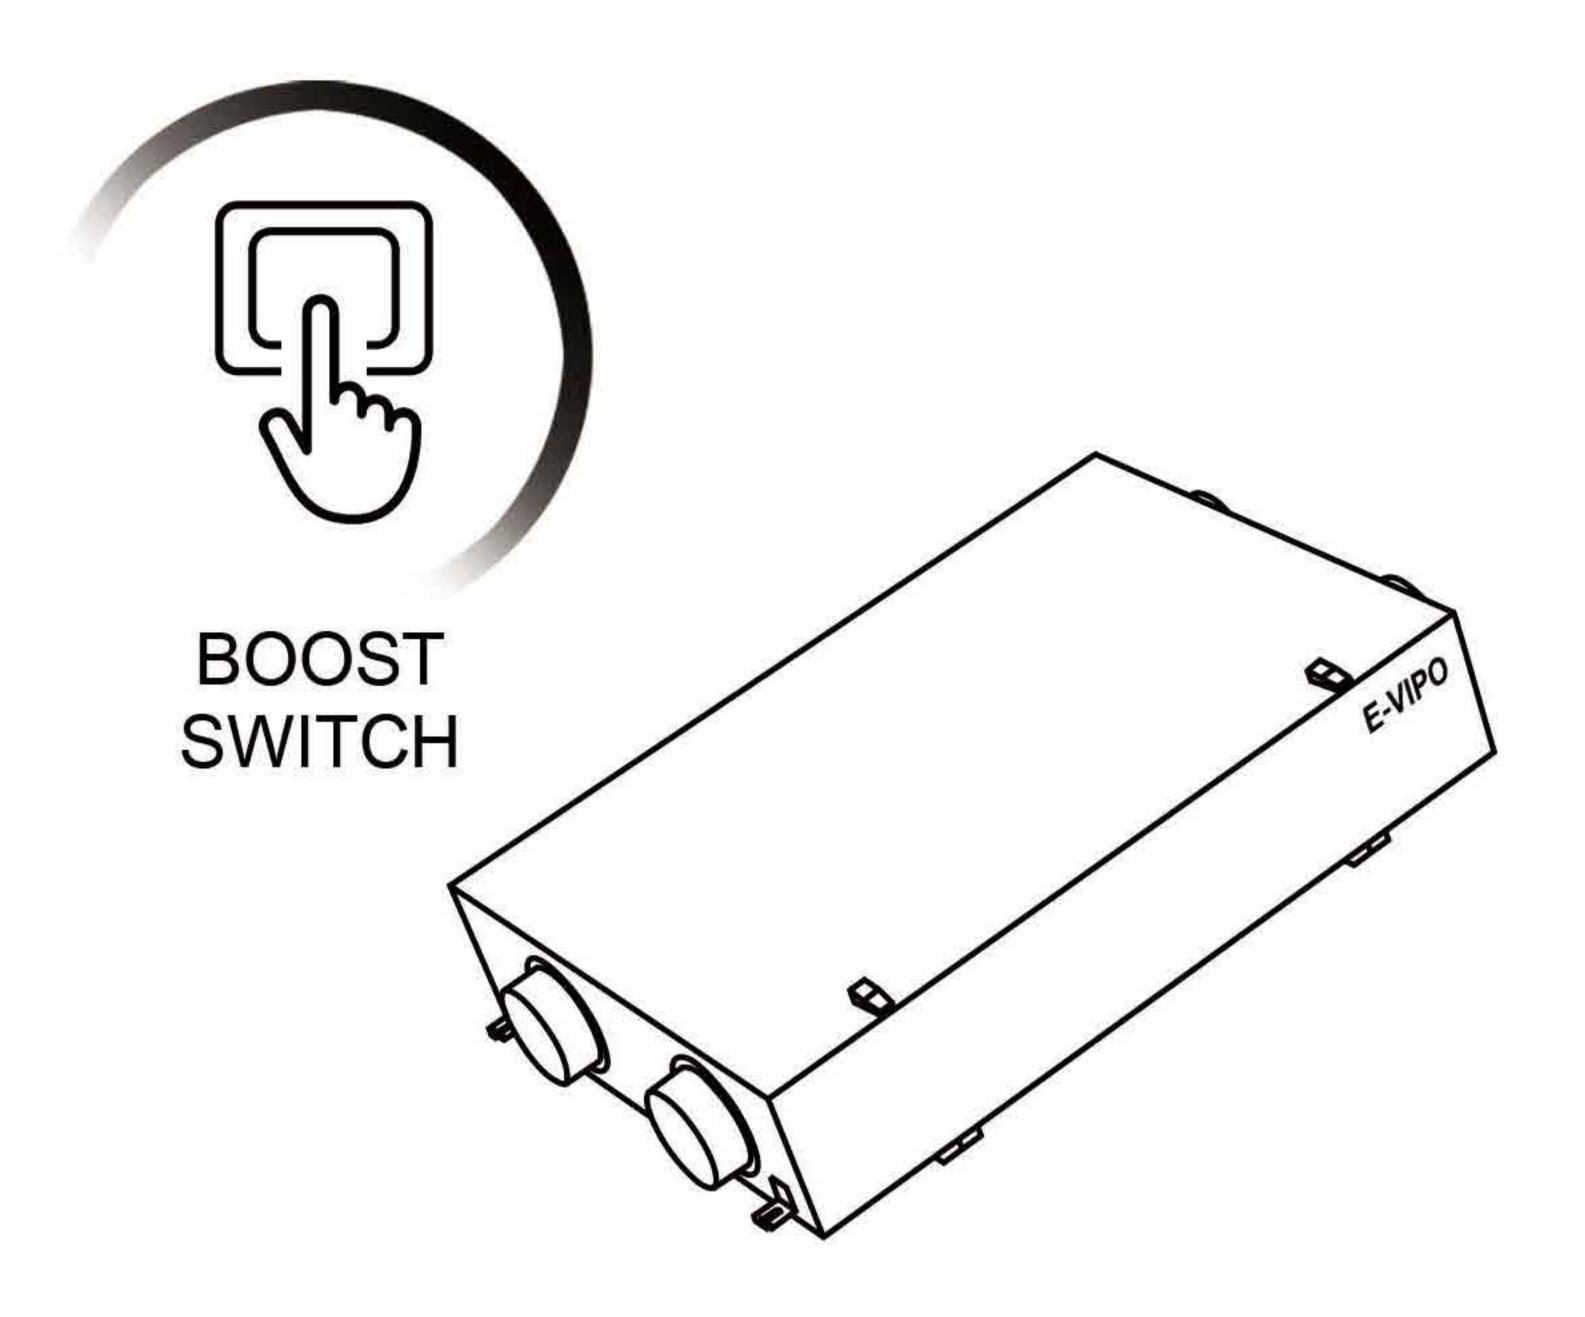

High performance Variable Speed Drive (VSD) EC motor has the features of low power consumption, quiet and high static pressure. This not only reduces the long run electricity cost, but also ensures the air delivering to the room is sufficient after ducting.

The airflows of the models are tested at 100Pa standard condition. Comparing to traditional way of testing at 0Pa, 100Pa ensures a sufficient amount of airflows delivering to each room.

CS SERIES \ E-ViPO°

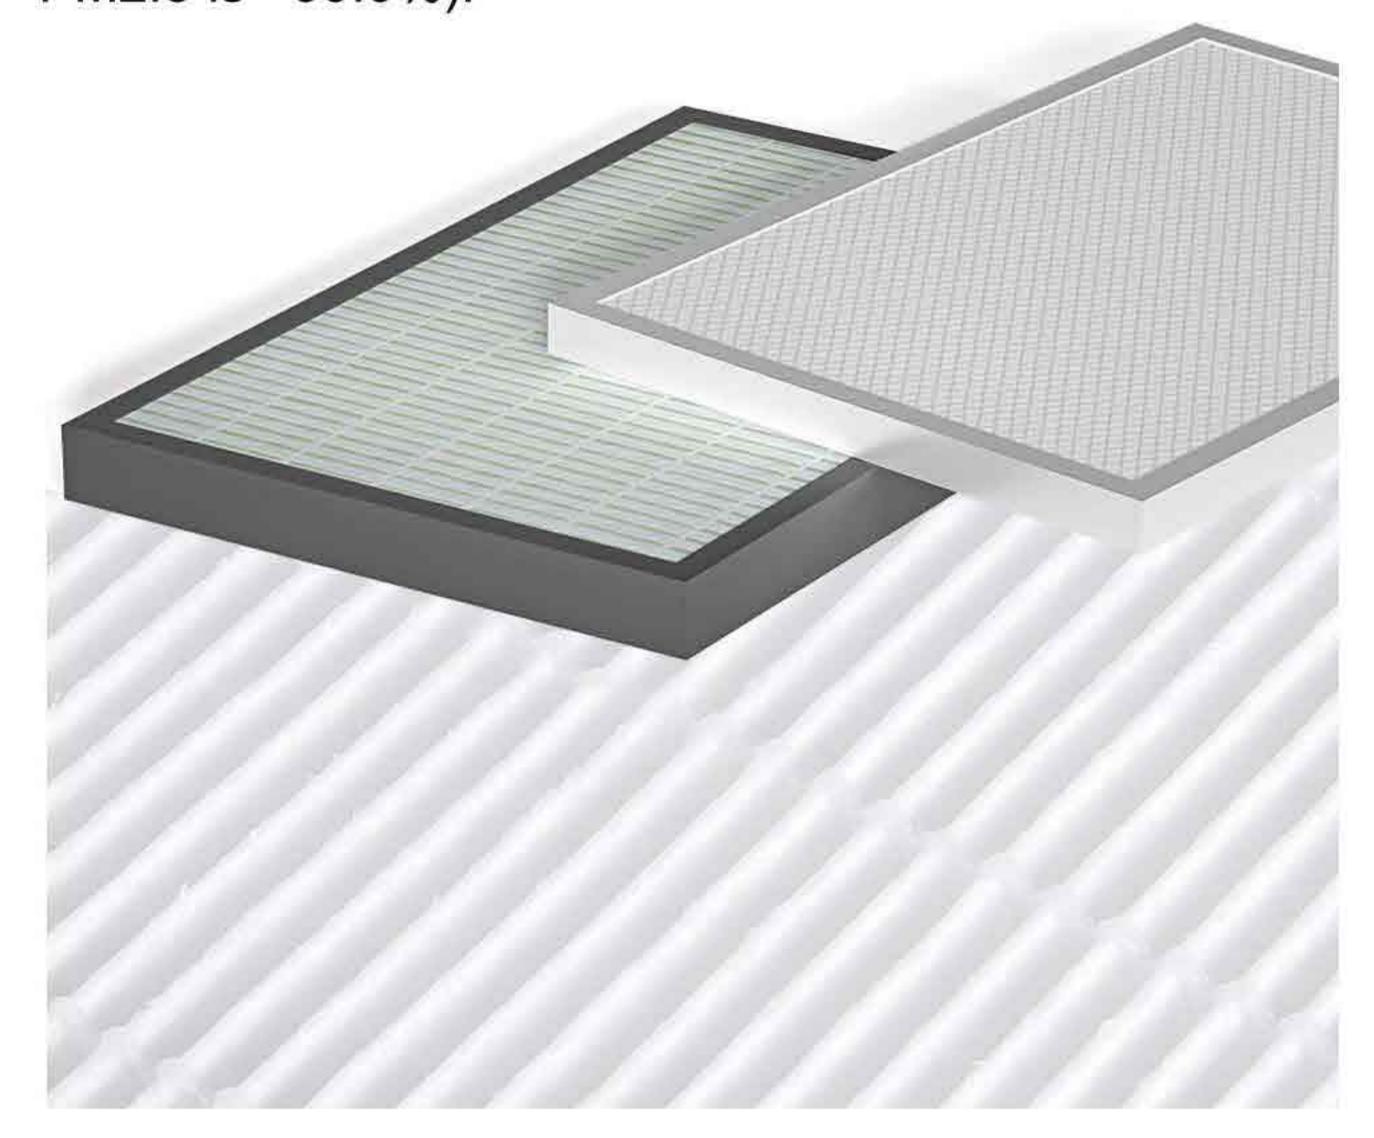

BOOST FUNCTION

Rapid Circulation

Boost ventilation is a function that can be triggered when indoor needs a fast circulation of air with outdoor fresh air. When the IAQ is bad, or indoor humidity is high, boost function can be triggered to ensures pollutants are extracted immediately at the highest fan speed. Up to 10 external boost switches can be connected to the control system.

G4 extract filter and G4 supply filter are fitted as standard. F8 supply filter is optional. H11 supply filter is available upon request (H11 filtering efficiency of PM2.5 is >99.9%).

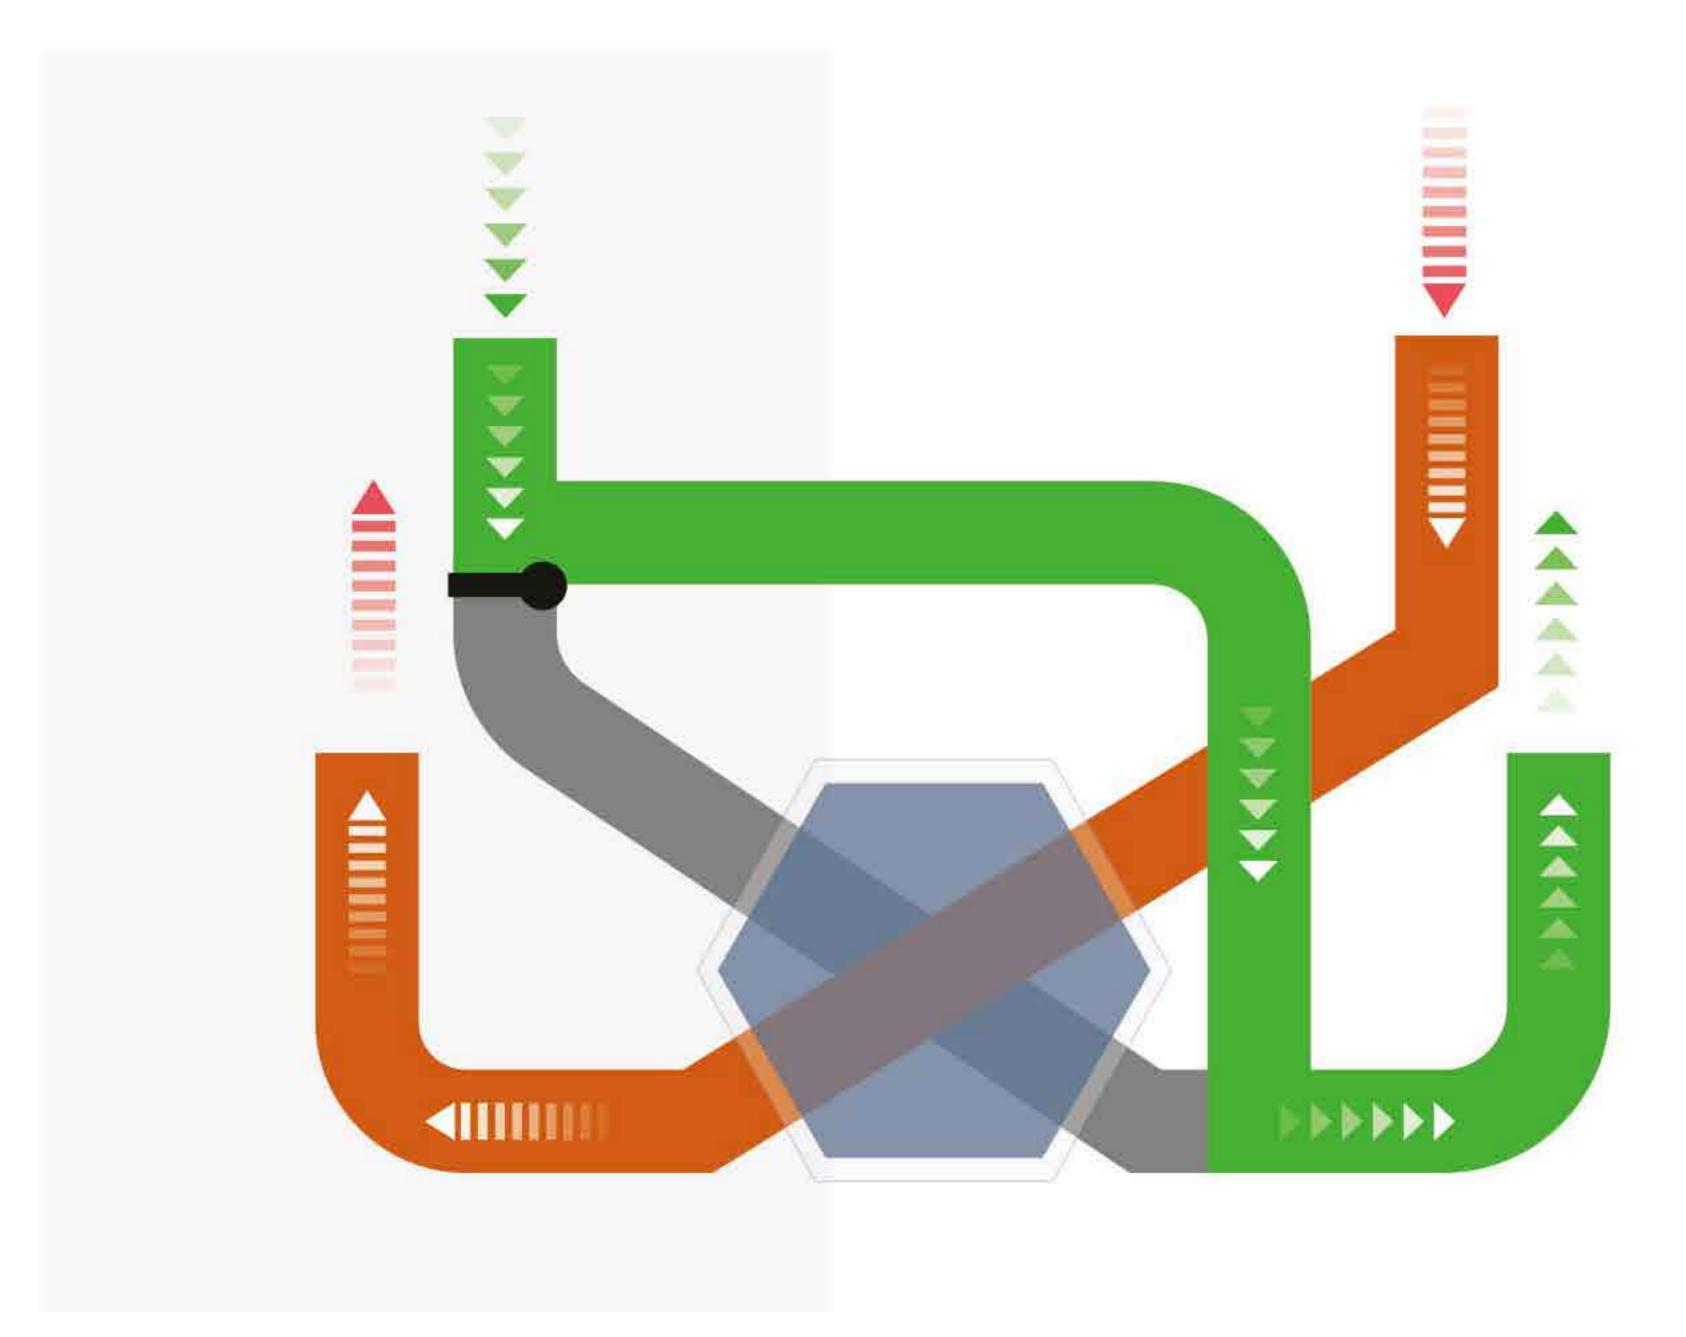

Bypass

BYPASS DAMPER

Automation

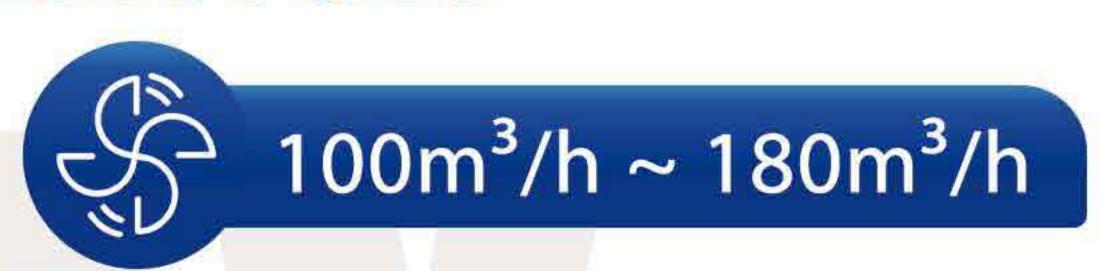

Bulit-in Bypass damper for summer bypass (free-cooling), without exchanging the heat at the heat exchanger, the fresh air with comfortable temperature level from outdoor can be delivered into the room directly.

VK8 CONTROL SYSTEM

- Comprehensive Control System
- HD 7" Color Touchscreen with Real-time IAQ Display
- Variable Speed Local Demand Control
- Modbus RS485 Smart Home Connection
- IAQ Sensors CO2 / PM2.5 / VOCs / TEMP / RH
- Weekly Scheduled Operation
- Optional Fans Separately Control
- Multiple External CO2 / RH / TEMP Sensors Connection
- Multiple External Boost Switches Connection
- Bypass / Defrost / IAQ Automation
- APP Remote Control Available
- Filter Countdown / Replacement Notification
- Complete Settings on Control Panel
